Apéritif Restaurant

Apéritif Restaurant is a fine dining destination in Ubud, set amidst picturesque rice fields. It transports guests to a bygone era of old world refinement and offers a distinctive degustation experience. Led by Belgian Executive Chef Nic Vanderbeeken, Apéritif blends flavours from the Spice Islands with modern European cuisine. The evening begins with pre dinner drinks and canapés at the bar, with a curated wine cellar, cigar collection, and thoughtful selection of spirits. Apéritif is more than a meal, it is a complete sensorial journey. The restaurant also features The Saloon, an elegant private dining room ideal for intimate gatherings of up to eleven guests.

Pinstripe Bar

Pinstripe Bar is Bali's glamorous speakeasy style bar, perched above the Valley of the Kings and offering an intimate indoor setting with warm Balinese hospitality. Finished with marble, dark woods, and bronze details, Pinstripe provides a sophisticated cocktail experience that recalls the charm of the 1930s. The current cocktail anthology takes inspiration from Miguel "El Chamaco" Covarrubias and his ties to both the Harlem Renaissance and 1930s Bali, with a menu arranged in themed sets that feature drinks using local ingredients, reimaged classics, and considered non alcoholic options.

CasCades Restaurant & Bar

CasCades Restaurant and Bar acts as a window to the Valley of the Kings for in house guests, providing all day dining and a relaxed place to linger over long meals. The highlight of the CasCades menu is the Royal Balinese Rijsttafel tasting experience, which allows guests to sample Indonesian cuisine across multiple courses of dishes prepared using traditional methods. On selected evenings, CasCades also hosts Balinese cultural performances several evenings a month, adding a sense of place to the dining experience.

Akoya Spa

Akoya Spa provides calm, thoughtful pampering with services designed to enhance physical, emotional, and spiritual well being. The spa offers a full range of treatments that blend Western techniques with Balinese traditions, including massage, body scrub and wrap, facials, hair crème bath, manicure, and pedicure. Treatment rooms such as a infrared sauna and a cold plunge, spa facilities, and in villa options are all available for guests who wish to focus on rest and renewal.
